

# Bayview Hexagonal Picnic Table

Model Number

BVHPT-84  
BVHPTWC-84 (Wheelchair Accessible)

The honeybee's ingenious honeycomb shape has been used for thousands of years. The Bayview hexagonal picnic table takes its design cues from this ensuring it never goes out of style! While the table shape is ancient and organic, it still brings with it a fresh and modern style that will withstand the rigors of heavy-use and whatever the environment throws at it. By using low-maintenance recycled plastic and aluminum materials, this design as well resists wear and corrosion ensuring years of trouble-free use. The large seating capacity seats six people comfortably, making it a perfect place to picnic with pals. Slip into your seat; there is plenty of space to allow for easy access to the table. The umbrella hole with a locking mechanism, makes sure that your umbrella doesn't blow away in a wind gust. From the queen bee to the worker bee and to the baby bee, this design gets everyone together!

## Material Specifications
