

Pipeline 2 Space Bike Rack

Model Number

PLBR-37

The Pipeline bike rack is a simple yet familiar design that matches the design cues of the rest of the Pipeline Family of products. It especially works well where designers are trying to provide a consistent look and feel with other street furniture used in the same proximity. There are three features making our Pipeline Bike Rack design unique. The first are the materials we use in its construction. Traditional steel bike racks tend to be heavy and not very corrosion resistant over time without galvanization. Our new thick walled aluminum pipe design provides similar strength qualities to steel ensuring safe storage of the bikes while the light weight corrosion resistant aluminum ensures it looks great over years of service. Second is that cross bar where the bike logo is located. It can be customized to meet a specific branding or labeling request from the client making it appear unique or different from others. And lastly, the design allows the user multiple locking opportunities to minimize risk of theft.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating

Customized Solutions

Custom Colours
(Setup Charges May Apply)
Custom Branding on the Cross Member
In-ground Mounting
INST-1 Stainless steel mounting kit for concrete

Recycled Content

Recycled Content by Weight: 0%
100% Recyclable

Product Dimensions

Height: 37.5 inches / 95 cm
Length: 24.5 inches / 63 cm
Depth: 5 inches / 12 cm
Weight: 13 lbs / 6 kg

OVER 30 POWDER COATING COLOURS *Premium powder colours incur a surcharge per item
