

Strataview Step 5 ft Bench

Model Number

SVSB-60-33 (5 ft)

The Strataview 5 ft Step Bench was developed as a modern alternative to traditional bleacher or amphitheater seating. Designed with both comfort and functionality in mind, this three-tier rectangular bench offers seating for 5–6 adults while elevating each row for enhanced visibility and comfort. Ideal for smaller venues like pickleball or tennis courts, it provides a practical solution for spectators or players waiting for their turn. The raised tiers keep users off the ground and offer a better line of sight for viewing the action. Thanks to its modular design, multiple benches can be linked together to form a curved layout, making it a versatile option for outdoor classrooms, performance spaces, or community amphitheaters.

Engineered for durability, the bench features a marine-grade aluminum frame with Super Durable Powder Coating and a seating surface made from recycled plastic lumber. The result? A robust, low-maintenance solution that's ready to handle the demands of any public outdoor space.
