

Urban Form Backless Bench with Storage Pockets

Model Number

UFBB-SP-6

UFBB-SP-8

UFBB-SP-ACA-6
(with armrests and center armrest)

The Wishbone Urban Form Backless Bench with Storage brings intelligent functionality to our bold Urban Form design — offering integrated storage pockets beneath the seat to keep personal belongings safely off the ground, out of the way, and protected from the weather. Designed for active public spaces, this version is ideal for outdoor skating rinks, pickleball courts, tennis facilities, and recreation areas where users need a convenient place to store shoes, bags, purses, or jackets while seated. By elevating items beneath the seat, belongings remain cleaner, drier, and shielded from snow, rain, and surface moisture. Constructed with a fully welded Marine Grade Aluminum frame, the bench maintains the same refined, no-exposed-hardware aesthetic as the rest of the Urban Form series. Framed-in tongue-and-groove lumber creates an exceptionally solid seating surface, helps restrict water from seeping through, and allows for easy board replacement if needed. Slightly raised seat slats soften the edge of the frame, enhancing overall comfort. The integrated storage pockets are cleanly incorporated into the design, preserving the bench's strong architectural profile while adding practical everyday utility. For added versatility, this model is also available with optional armrests and centre armrests — helping define personal space and improve accessibility in high-use environments. Like all Urban Form products, the bench can be customized to suit specific width and length requirements. Smart storage. Clean design. Built for active community spaces.
